Flu Shots

With an in-network provider, HealthSelect participants can get flu shots at Walgreens or by contacting your network PCP covered at 100%. If you receive a flu shot from a provider that isn’t in the BCBSTX HealthSelect network, you could pay 40% coinsurance for the cost of the vaccinations, after meeting the annual $500 out-of-network deductible per person.

Freestanding Emergency Rooms

In light of the recent news broadcasts regarding the flu epidemic, please remember that while you may visit a freestanding Emergency Room (Ex. ER Now), you will incur higher out-of-pocket expenses. The freestanding Emergency Rooms in Wichita Falls are not in the HealthSelect network. Participants are responsible for any billed charges that exceed the amount HealthSelect pays, regardless of whether the services were the result of a true emergency or non-emergency. More information: freestanding Emergency Rooms.

Your Primary Care Physician (PCP), the walk-in clinic associated with your PCP, or virtual visits are in-network options that are also available to you when seeking medical care.

In case of a true emergency, you should always seek out the nearest emergency room.
