Weblogs, Wikis, and Other Web 2.0 Applications
Michael Land

All of the Web 2.0 applications in the presentation are available to anyone who has access to the Web and are all available at no cost, although several of them offer additional features at a small charge. The LiveBinders file used in the presentation is available at http://livebinders.com/play/play_or_edit?id=27018. All of the URLs are available in the electronic binder.

Personal examples of

- Blogs [Blogger]
  - Blogger Skills http://blogging-skills.blogspot.com/
  - Graphic Organizers http://tech-mwsu.blogspot.com/
  - Searching-Bookmarking http://bkmrk-search.blogspot.com/

- Wikis [PBWorks]
  - ETEC 5143 http://etec5143.pbworks.com/Day09
  - EDUC 1023 http://educ1023.pbworks.com/

If I can be of assistance to anyone, please feel free to contact me at 397-4139 or michael.land@mwsu.edu or come by my office at FE304B.

From Wikipedia:

"The term Web 2.0 is commonly associated with web applications that facilitate interactive information sharing, interoperability, user-centered design, and collaboration on the World Wide Web. A Web 2.0 site gives its users the free choice to interact or collaborate with each other in a social media dialogue as creators (prosumer) of user-generated content in a virtual community, in contrast to websites where users (consumer) are limited to the passive viewing of content that was created for them. Examples of Web 2.0 include social-networking sites, blogs, wikis, video-sharing sites, hosted services, web applications, mashups and folksonomies."
